# Situation Report - For Official Use Only

## Coronavirus Disease 2019 (COVID-19)

Report Date:

12/6/2020

Report Time:

1700

### Situation Overview

- **California State of Emergency Proclamation**

On March 4, 2020, Governor Gavin Newsom declared a State of Emergency for California, as a result of the global COVID-19 outbreak that began in December 2019, to make additional resources available, formalize emergency actions already underway across multiple state agencies and departments, and help the State prepare for broader spread of COVID-19.

- **Global Health Advisory**

On August 6, 2020, in close coordination with the U.S. Centers for Disease Control and Prevention (CDC), the Department of State lifted the Global Level 4 Health Advisory. The Global Advisory, initially put in place on March 19, 2020, advised U.S. citizens to avoid all international travel due to the global impact of COVID-19. For more information visit: <https://www.state.gov>.

- **Executive Order N-33-20**

On August 28, 2020, California introduced a blueprint for reducing COVID-19 in the state with revised criteria for loosening and tightening restrictions on activities by counties. Visit [Blueprint for a Safer Economy](#) for more information and to check the status of a county. This blueprint included a health equity metric to be used along with other metrics to determine a county's tier. The purpose of [Equity Metric](#) is to ensure California reopens its economy safely by reducing disease transmission in all communities.

- **FEMA-4482-DR-CA**

On March 22, 2020, President Trump approved Major Declaration FEMA-4482-DR-CA (DR-4482) for the COVID-19 Pandemic.

### Confirmed Global COVID-19 Cases - Per Worldometers COVID-19 Live Updates as of 1100 Hours on **December 6, 2020**:

- 67,199,307 (+611,903) total confirmed cases in 218 countries.
- 1,539,608 (+9,206) total deaths.

### Confirmed United States COVID-19 Cases - Per Centers for Disease Control and Prevention (CDC) as of 1000 Hours on **December 6, 2020**:

- 14,462,527 (+206,992) total confirmed cases.
- 280,135 (+2,310) total deaths.

### Confirmed California COVID-19 Cases - Per Medical Health Coordination Center (MHCC) as of 1100 Hours on **December 6, 2020**:

- 1,341,700 (+30,075) total confirmed cases.

#### **County Reports**

##### Contra Costa County

- Joint Press Release Although health officials throughout the Bay Area are glad to see the State take action in light of the rapidly escalating surge in hospitalizations statewide, many believe even more aggressive action is necessary in the Bay Area to slow the surge and prevent their local hospitals from being overwhelmed. Rather than waiting until Intensive Care Unit (ICU) bed availability reaches critical levels and delaying closures that are inevitable, the Health Officers for the Counties of Alameda, Contra Costa, Marin, San Francisco, and Santa Clara as well as the City of Berkeley are jointly announcing that they will implement the State's Regional Stay Home Order now.

## Situation Report - For Official Use Only

### Coronavirus Disease 2019 (COVID-19)

**Report Date:**

**12/6/2020**

**Report Time:**

**1700**

#### **Situation Cell Overview**

Another round of stronger Santa Ana winds possible over southwest California by Monday and Tuesday along with moderately strong north to northeast winds in the Sacramento Valley and Foothills, Greater Bay Area, and west slopes of Cascade Sierra Ranges. Southern California Edison (SCE), San Diego Gas and Electric (SDG&E), and Pacific Gas and Electric (PG&E) have activated public safety power shutoff protocols to mitigate the risks of large fires.

#### **Key Points**

- SCE is currently at Activating PSPS Protocols/Potential to De-energize PSPS Stage.
- [SDG&E is currently at Activating PSPS Protocols/Potential to De-energize PSPS Stage.](#)
- [PG&E is currently at Decision to De-energize PSPS Stage.](#)
- Critical fire weather conditions could lead to rapid spread of any new fires.
- Several new fires have started in the Southern Region.

#### **Potential Impacts**

- High winds in combination with dry surface fuels bring critical fire weather conditions.

#### **Weather**

##### **Northern California Geographical Coordination Center (Northern GACC):**

Moderately strong north to northeast winds favoring the Sacramento Valley and Foothills, Greater Bay Area, and west slopes of Cascade Sierra Ranges are possible this afternoon through Monday following the passage of a dry cold front. Current model runs show wind gusts generally in the 25 to 40 mph range during this time period with stronger winds possible along exposed peaks, ridges, and through channeled terrain along the west slopes of the Cascade Sierra Mountains. Minimum relative humidity in windy locations will fall into the 15-25% range. Those areas that have received little precipitation over the past 2 weeks with very low shrub moisture, will be more vulnerable to fire spread during periods of strong winds and low relative humidity. Offshore flow will diminish for Tuesday and Wednesday may strengthen again during the second half of the week.

##### **Southern California Geographical Coordination Center (Southern GACC):**

Northeast to east winds of 20 to 40 mph with gusts to 60 mph will develop across the mountains and below the canyons and passes of Southern California Monday morning and continue through Tuesday. [The potential for large fires will become elevated across Central California due to gusty offshore winds and very low humidity Monday and Tuesday.](#) Extreme fire behavior will occur on new ignitions in windy areas. The threat will decrease significantly across Southern California Wednesday and Thursday as winds lessen and become more isolated. [Strong north winds will increase the large fire threat across Santa Barbara County and the Grapevine area Thursday afternoon through Friday night.](#) Another possible Santa Ana wind event may occur next Friday which would cause another period of heightened fire concern. Fuels will remain extremely dry through the end of next week. Expect moderate to heavy initial attack activity across Southern California during windy periods. Otherwise initial attack activity will be light through the end of next week.

# Situation Report - For Official Use Only

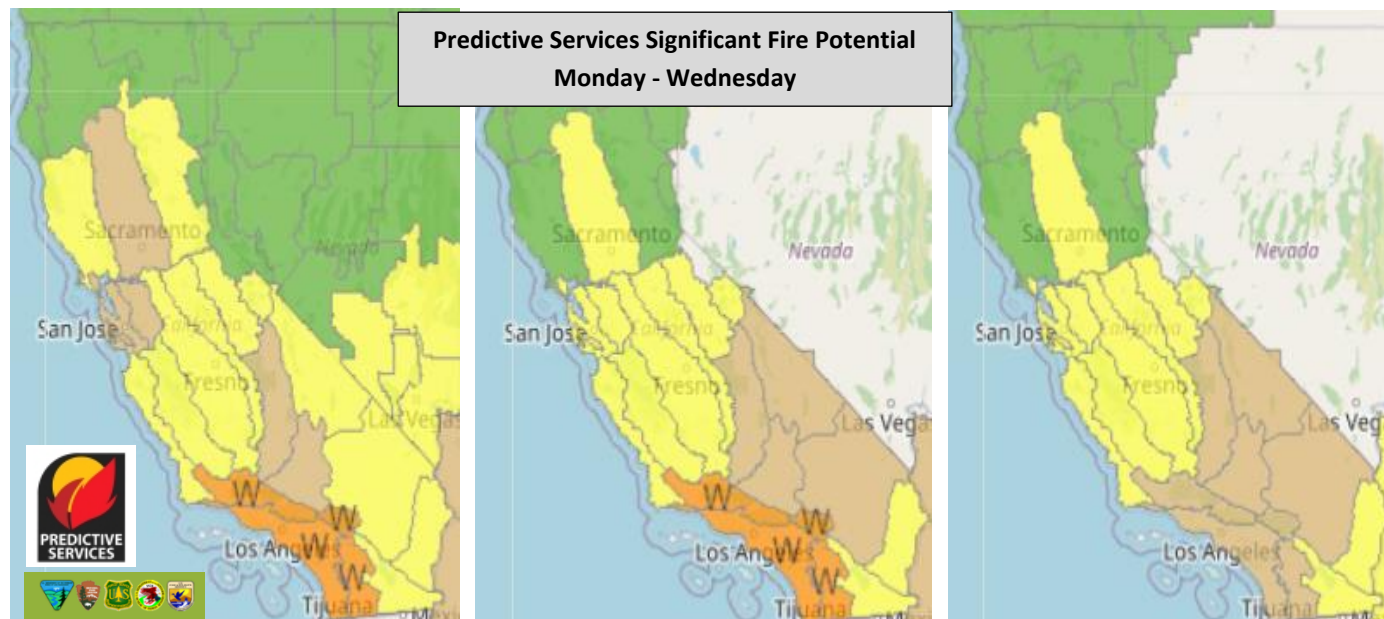

## Coronavirus Disease 2019 (COVID-19)

Report Date:

12/6/2020

Report Time:

1700

### Santa Ana Wildfire Threat Index

Northeast to east winds will develop Monday in the morning and then increase to 20 to 40 mph with gusts to 60 mph across the mountains and below the canyons and passes by noon. Humidity will be in the single digits and teens all day long. Maximum temperatures will be 5 to 10 degrees above normal, with 70s across the lower elevations. Both the dead and live fuels will be extremely dry.

Zones	Sun/Dec 6	Mon/Dec 7	Tue/Dec 8	Wed/Dec 9	Thu/Dec 10	Fri/Dec 11
Zone 1: LA-Ventura						
Zone 2: Orange-Inland Empire						
Zone 3: San Diego						
Zone 4: Santa Barbara						

NO RATING	Winds are either not expected, will not contribute to significant fire activity.
MARGINAL	Upon ignition, fires may grow rapidly.
MODERATE	Upon ignition, fires will grow rapidly and will be difficult to control.
HIGH	Upon ignition, fires will grow very rapidly, will burn intensely, and will be very difficult to control.
EXTREME	Upon ignition, fires will have extreme growth, will burn very intensely, and will be uncontrollable.

### National Weather Service (NWS)

- Winds will increase late Sunday across Northern California and increase into Southern California by Monday morning.
  - Strong winds will develop across the Bay Area Sunday night and Monday, and in the Sierra Nevada Sunday night through Monday night, bringing the potential for widespread critical fire weather conditions and potentially damaging winds.
  - A moderate Santa Ana wind event will begin overnight Sunday into Monday and continue through Tuesday morning.
- Another Santa Ana event is possible by the weekend, but confidence is low on timing, strength, and duration.

Orange	Duty Officer Status	-

# Situation Report - For Official Use Only

## Coronavirus Disease 2019 (COVID-19)

**Report Date:**

**12/6/2020**

**Report Time:**

**1700**

County	Activation Status	Hours
Riverside	Duty Officer Status	-
San Bernardino	Duty Officer Status	-
San Diego	Duty Officer Status	-
Ventura	None	-

### San Bernardino County

- **Critical Infrastructure (damage to roads, bridges, railway, airports, etc.)**
  - County Departments have backup generators that run on the average 72 hours for 10 days depending on the type. County fleet administration has backup fuel.
- **Access and Functional Needs (transportation needs, translation/interpretation)**
  - If a resident cannot stay in their home because power outage has created a life safety issue, county Departments coordinate NCS.

### San Diego County

- **Critical Infrastructure (damage to roads, bridges, railway, airports, etc.)**
  - Due to the power outages at some school sites, there are temporary changes to regular meal distribution sites.
  - School district leadership and the San Diego County Office of Education will continue to monitor the situation and consult with local fire and utility representatives.
  - Total Number of students impacted by school closures due to PSPS was (from all school districts): 26,764
- **Access and Functional Needs (transportation needs, translation/interpretation)**
  - Elderly members coming into the CRC with concerns due to the length of this event, they have been referred to 211 and have been supported through the services via 211.
  - A Health Care facility in Alpine is being provided with a generator. Power to the facility was restored by midnight (12/3) from generator power.
